**RESPONSE TO CLAIM RESTRICTION REQUIREMENT**

In response to the Office Action dated February 20, 2009, requiring restriction of inventions under 35 U.S.C. 121. Applicants hereby elect, with traverse, to prosecute Group I, claims 1-9, 17-19 and 23. The restriction requirement is traversed for the following reasons.

The Office Action indicates that the common patentable technical feature of the claims is the use of a shoe welt. Applicant respectfully submits that the method of claim 1 is the common patentable technical feature of the claims. It is noted that during international examination, all of the claims were examined and unity of invention was found for all categories of claims. Accordingly, Applicant submits that requiring restriction at this point during prosecution is unwarranted and would cause undue expense for Applicant.

I hereby certify that this paper is being deposited this date with the U.S. Postal Service as first class mail addressed to the Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450
